SUMMARY

Computer Science & Engineering undergraduate with experience in full-stack development, machine learning, and cloud computing. Proficient in Python, JavaScript, React, PHP, and MySQL. Developed multiple end-to-end projects and currently working as a Virtual Intern at Infosys Springboard. Strong problem-solving ability, quick to learn new technologies, and committed to delivering quality work. Seeking internship or entry-level opportunities to apply technical skills and grow within a professional environment.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, PHP, C
Web Development: React, TypeScript, Vite, HTML, CSS
ML & AI: Machine Learning, Computer Vision, OpenCV, TensorFlow, Pandas, NumPy
Databases: MySQL, Firebase, Supabase
Cloud & Tools: Google Cloud, AWS, Git, GitHub, VS Code, Google Colab, Antigravity
Core CS: DSA, OOP, Database Design, Web Security

EDUCATION

Jain Institute of Technology, Davangere 2023 – Present
B.E. – Computer Science & Engineering (Currently Pursuing)

S V Nanavate PU College, Sandur, Ballari 2021 – 2023
Pre-University – PCMB - 80%

Krupa Nilaya School, Sandur, Ballari Completed 2021
Secondary School – SSLC - 89%

EXPERIENCE

Infosys Springboard Remote
Virtual Intern – Full Stack Development (Internship 6.0) Feb 2026

- **Selected** for Virtual Internship 6.0 — working on real-world **AI and full-stack projects** under industry mentorship.
- Building **DeepVision Crowd Monitor** — real-time **crowd density estimation and overcrowding detection** using deep learning, OpenCV, and Python.

Infosys Springboard – Pragati: Path to Future Remote
Program Participant – Cohort 5 Apr – Jul 2025

- Completed **Pragati Cohort 5** — covering **industry exposure, technical upskilling, professional communication,** and career building.

PROJECTS

LifeLink Connect – Blood Donation & Emergency Connect - React 18, TypeScript, Vite, Supabase, PostgreSQL

- **Real-time blood donation platform** connecting donors, patients, and hospitals with **blood group matching, emergency SOS alerts,** and GPS blood bank locator.
- **Secure role-based authentication,** real-time notifications via **Supabase,** with real-time notifications and a fully responsive UI.

Sign Language Tutor – Bidirectional Sign Language Communication System - Python, OpenCV, MediaPipe, TensorFlow, TypeScript, Text-to-Speech, Speech Recognition

- **Mode 1 – Sign → Text & Voice:** detects sign language gestures via **OpenCV & MediaPipe** and converts them to text and spoken audio in real time.

- **Mode 2 – Voice & Text → Sign:** converts spoken or typed input into sign language gestures — bridging communication for the **hearing impaired.**

Phish Patrol – Phishing & Fake Email Detection - **Python, Web Security**

- **Analyzes email content and sender patterns** to detect **phishing attempts and fake emails** before they reach users.
- **Rule-based pattern matching** and **threat signature detection** flags suspicious emails in real time — accessible to non-technical users.

Multi-Agent Research System - **Python, Multi-Agent AI, LLMs, Web Scraping, PDF Generation**

- **20 specialized AI agents** autonomously search, filter, summarize, and cross-reference sources to generate **structured, downloadable research papers.**
- **Reduces hours of manual research to minutes** by distributing tasks across agents — each handling searching, filtering, or summarizing independently.

CERTIFICATIONS

- **Deloitte Australia – Data Analytics Job Simulation** - Forage - Jan 2026
- **SQL and PostgreSQL for Beginners** - Udemy - Jul 2025
- **Data Science Methodology** - IBM / Coursera - Jul 2025
- **AWS Skill Builder Program** - Infosys Springboard × AWS
- **Front-End Development Program** - Infosys Springboard

ACHIEVEMENTS

- **3rd Place – AIT Ideathon 2025** - Atria Institute of Technology — built a working prototype in under 24 hours (Stellar, GDG & Code Club).
- **Hackathon Coordinator – Emerge (State Level Event)** - Coordinated the hackathon sub-event at Emerge, a state-level event held on 25 March 2026 — managed participant registration, event flow, and on-ground coordination.
- **Top Innovator – AI for Bharat Hackathon** - Hack2Skill × AWS — shortlisted nationally for Prototype Development Phase (Mar 2026).
- **TechSprint Online Hackathon** - GDG OnCampus GSSSIETW - Dec 2025 – Jan 2026.
- **AI VERSE 2.0 – 48-Hour National Hackathon** - Augment.AI Club, BMS College of Engineering - Oct 2025.

ADDITIONAL INFORMATION

Languages: **English, Kannada, Hindi**
Interests: **Open-Source Development, Machine Learning Research, Web Security, Cloud Computing**
